

## PREPARE YOUR ARRIVAL – ACCOMMODATION FOR LONG TERM STAYS

Housing in Paris is a student nightmare: the city is rather expensive, and the PSE does not provide student housing. Nevertheless, there are some organizations that provide student housing assistance. You can also improve your chances of finding housing by contacting your embassy, consulates, and all kinds of social networks or religious circles.

## Student halls

Cité Internationale Universitaire de Paris (CIUP) - [Website](#)

Housing at the CIUP is organized in « houses », which are generally linked to a country or a school. If you are a citizen of a country or a member of an organization who has its own House of residence at the CIUP, apply directly to that house. If there is no house for your country or school, you must fill out an online application form that will be automatically sent to the department in charge of housing at the CIUP.

Deadline to apply:

There are no deadlines for submitting a request; the CIUP accepts new residents throughout the academic year. It is in any case important to note that the requests for September each year must be completed from April to the same year. Whatever the result of your application, you will be notified by e-mail, to the electronic address given in your request for accommodation. It is therefore essential that you give an address which you check regularly.

For APE, PPD and EDCBA masters:

PSE has a partnership with Maison des Provinces de France (MPF - <http://www.ciup.fr/maison-provinces-france/> ). For the 2020-2021 academic year 12 rooms are pre-booked for our students.
