### Paris School of Economics – PhD Candidate

Thesis title: Electricity markets with increasing intermittent, renewable capacities;

Supervision: Nicolas Astier, Carine Staropoli

09.2020 – 09.2023

### Paris School of Economics – Master’s in Public Policy and Development

Avg. grade 15.9/20; Master’s Thesis grade 17/20, Award for the 2nd best master’s thesis in energy economics from the French Association of Energy Economists

10.2016 – 06.2019

### University of Warwick – BSc Philosophy, Politics and Economics (Economics Major)

Avg. grade: 69.4%; Upper Second Class Honours

## PROFESSIONAL EXPERIENCE

05.2024 – ongoing Warsaw, Poland

### Ekoen – Data analyst and Business Intelligence

Analysis of power purchasing contracts and Polish electricity and electromobility markets.

Business Intelligence services including financial data analysis and reporting in Power BI.

02.2023 – 02.2024 Paris, France

### Paris Infrastructure Advisory – Energy analyst

Built financial models (Excel) to calculate authorised revenue of electric utilities and support the regulator accept the tariff schedule and grid in Guinea and Chad. Analysed raw metering data of electricity consumers in Dominica Republic to help the regulator design cost-reflective pricing matrix.

Created an Excel model for economic, financial, fiscal and macroeconomic analysis of the 300 MEUR

Dogo Bis project in Benin including the construction of the dam, hydro power plant and irrigation system.

05.2021 – 05.2022 Paris, France

### OECD – Internship, Centre for Entrepreneurship, SMEs, Regions and Cities

Analysed data (using R) on regional income inequalities and relative poverty levels and dynamics from the Luxembourg Income Study and Eurostat EU-SILC databases for the 30 OECD member states.

The results are presented in a subchapter in the publication OECD Regions and Cities at a Glance 2022 and computed statistics are available in the OECD statistics database.

11.2019 – 08.2020 Warsaw, Poland

### Polish Development Fund – Specialist, Innovation Development Department

Co-created the developmental program dedicated to the economic growth of medium sized cities based on the strategic partnerships between business, public and regional administration. Managed an online database of 40+, exemplar case studies from Poland and Europe presenting good practises. Analysed possible financing sources for development projects in the cities.

Analysed data on the Polish hydrogen, electromobility and battery market including the financing opportunities from national and European funds (including IPCEI mechanism).

## OTHER EXPERIENCE

03.2024 Paris School of Economics

### PSE Urban New Deal Chair – policy brief

Poland’s solar power surge a model or misleading success. A policy brief based on my master’s thesis study of popular solar subsidy pass-through rate and potential market power presence in the Polish residential PV market between 2019 and 2024.

06.2018 Uni. of Warwick

### Architectural Quarterly Journal RZUT - publication

Wrote a deep socio-political analysis of economic conditions that led to the collapse of council housing in the UK. Article was published in an academic architectural journal of Warsaw University of Technology.
